General Information

Welcome to WV Pre-K!

WV Pre-Kindergarten is a collaborative effort between Marshall County Schools, Northern Panhandle Head Start, and licensed child-care centers. Pre-K is offered at multiple sites beyond our school buildings. This allows us to provide maximum services for our students. All sites follow state board policy 2525 and are part of the West Virginia Pre-K system. Delivery of services are provided as uniformly as possible to meet the needs of individual students. The same curriculum is implemented in all sites and instruction is provided by qualified teachers.

Educating children is a collaborative effort between learning centers and parents. The success of our students is dependent upon this collaboration. Our goal is to provide a good transition for children and their families as learning opportunities unfold in the classroom setting. The registration process is an important step. Please complete your registration packet in a timely manner. Your questions are welcomed.
